

## **ALBILEX<sup>®</sup>-3000 and ALBILEX<sup>®</sup>-3000-A**

ALBILEX<sup>®</sup>-3000 is a highly effective disinfectant for the cleaning and disinfection of drinking water tanks with all kind of coatings and coverings. It removes iron, calcium and manganese deposits as well as impurities caused by fungus, algae and bacteria ; all in one step.

### **Advantages**

- DVGW and ÖVGW approved as special detergent for potable-water systems
- One cleaning disinfectant for all kinds of tank coatings and surfaces
- Deep cleaning and disinfection effect
- Gentle treatment of coatings, reinforced concrete and stainless steel fittings
- Gentle to stainless steel tanks
- Proven to be user- and eco-friendly
- User-friendly – no noxious gas production
- Easy disposal after cleaning
- Certified eco-friendly characteristics

### **Application Method**

Depending on the degree of fouling, ALBILEX<sup>®</sup>-3000 and ALBILEX<sup>®</sup>-3000-A (in a ratio of 1 to 2 portions ALBILEX<sup>®</sup>-3000-A with 30 portions of ALBILEX<sup>®</sup>-3000) are mixed undiluted or diluted in water up to maximum 1:5. The solution is applied with a low-pressure sprayer on the surface which has previously been wetted with drinking-water. A reaction time between 5 to 20 minutes is required. Afterwards the surface is thoroughly rinsed with water. If necessary, very soiled patches in the splash-zone may need to be mechanically scrubbed.

If required, and in accordance to local regulations, ALBILEX<sup>®</sup>-3000 can be brought to a pH value between 6.5 – 9.0 and then disposed via the sewage system. With ALBILEX<sup>®</sup>-Neutralizer, larger quantities of ALBILEX<sup>®</sup>-3000 can be reduced to a pH value of 6.5 - 9.0.

### **Ingredients**

ALBILEX<sup>®</sup>-3000 contains mineral acids, ester and non-ionic wetting agents. The non-mineral additives are easily degradable. Adding ALBILEX<sup>®</sup>-3000-A, a specially stabilized hydrogen peroxide solution, activated oxygen is set free, which disinfects and increases the cleaning power.

### **Form of Delivery / Packing**

The two-component product comprising the cleaner ALBILEX<sup>®</sup>-3000 and the additive ALBILEX<sup>®</sup>-3000-A is available as follows :

ALBILEX<sup>®</sup>-3000   => 30 kg can / 1000 kg container

ALBILEX<sup>®</sup>-3000-A => 1 kg, 5 kg and 30 kg cans
